VINYL DANCE FLOORS - FAQ

Is a vinyl dance floor slippery?

Vinyl floors are no more slippery than a hardwood floor.

What dance floor colors are available?

Although most clients book a white floor as this color is the most cost effective, you can choose from any color of the rainbow.

Can I customize my monogram?

Yes, every floor includes a free custom design with unlimited revisions. We don't stop working with you until you are completely happy with the design.

A full vinyl floor is out of my budget, what do you recommend?

We offer a variety of affordable options to work within your budget, such as solo monograms and cutout monograms. Get in touch with us to learn more.

My event is in a few years, how early should I book?

There is no rush! Take the time you need until you are ready and comfortable to proceed. Please keep in mind that we receive bookings several years in advance, so if you are ready to proceed, we strongly recommend that you secure your booking to ensure that we can accommodate your date.

Do you install and remove the dance floors?

Yes, we include both installation and removal in all of our bookings.

Is a vinyl dance floor re-usable?

Due to the nature of the material, vinyl is not re-usable. Once it is peeled off, the adhesive is no longer active.

What surface can a vinyl floor be applied to?

Vinyl can be applied to any hard surface including, but not limited to, hardwood, concrete, tile, acrylic and glass.

My venue doesn't have a hard surface, can I rent a floor?

You certainly can! Either we can supply you with a rental floor, or you can rent one yourself and we will simply vinyl overtop.

My venue is concerned about vinyl being thrown out in their garbage.

Rest assured that we do not throw out garbage at any venue. All garbage, including any left over scraps, are taken away by our team leaving the venue clean and tidy.

What floor size do you recommend?

The floor size should be determined by your venue, decorator or event planner. Based on your floor plan, a decision will be made as to what size the dancing area should be. Keep in mind, many venues have a built-in dance floor, so you may not have much flexibility in choosing a size. In the scenario that you can choose a size, it is recommended to have approximately 3-4 square feet per guest.

TESTIMONIALS

Axe Media went above and beyond! They were a pleasure to deal with on all our wedding needs from start to finish and weren't scared to think outside of the box. I am also an interior designer and once again they did not disappoint on my most recent commercial space redesign. My clients were thrilled and all looked amazing. - Billy, Toronto, ON

As an event planner, I work with dozens of vendors on a daily basis. I must say that working with Axe Media is always a pleasure. My clients constantly rave about the high quality dance floors! When it comes to decor, the dance floors really make the room. Thank you for exceeding my clients' expectations! - Michelle, Toronto, ON

The consultants at Axe Media really care about doing a fantastic job. They are very detail oriented, extremely knowledgeable and always available to answer any question. Highly recommended! - Tracey, Vaughan, ON
